

Read **4** of the following articles from the book: *40 Studies that Changed Psychology*, and answer the 5 questions below for each article in a NOTEBOOK or GOOGLE DOC. A PDF copy of the book is on Schoology.

Required Readings:

Reading 29: Who's crazy here, anyway? Rosenhan, D.

Reading 40: Obey at any cost? Milgram, S.

Reading 12: See Aggression...do aggression. Bandura, A.

Reading 10: Little emotional Albert. Watson, J and Rayner, R.

Reading 38: The power of conformity. Asch, S.

Reading 9: It's not just about salivating dogs! Pavlov, I.

Reading 11: Knock wood! Skinner, B.F.

Reading 17: Discovering love. Harlow, H.

*be prepared to discuss and quiz on these readings when we return to school.

READING QUESTIONS: Throughout **A.P. Psychology**, you will have the opportunity to *apply* course content to various **Research Studies** that have occurred throughout the history of psychology. After reading each assigned research study, you will be required to respond/react to the following questions in your composition notebook:

1. Provide **background information** of the study at hand. *Who* was/were the **researcher(s)** involved in this study? What **question(s)** were they attempting to answer? What were their **hypotheses/theories**?
2. *Describe* the researchers' **methods**. How did they *test* their **hypothesis**?
3. What were the **results** of this study?
4. What were the researchers' **conclusions**? Was their hypothesis *correct*? *How so*?
5. In what ways were their findings *significant*?
