

# Herrman Happenings

## September

Mrs. Bauer and Ms. Pilsner started incorporating SEL in the art room by having students design a cube. Each cube celebrates their individual interests and is assembled together as a way to show our school community. The cube “murals” are displayed on each of the grade level bulletin boards.

*Art*

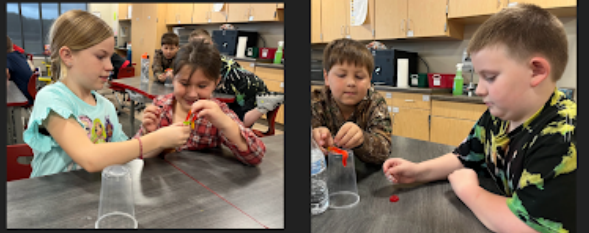

Due to a new wall addition the librarians worked with the custodial team to creatively redesign the library. Furniture and shelving were moved to create collaborative work spaces for students. We can't wait to see the space in use. Thank you to our custodial staff for all of your hard work and creative input!

*School Custodians*

Students in Mrs. Kozelka's class spent some time exploring different soft start options. A soft start is a calm way for students to begin their day while also engaging their brain in critical thinking and creativity.

*Fourth Grade*

Students in Mrs. Rowan's 3rd grade class completed a challenge called "Save Fred". To successfully complete the challenge, they had to collaborate, problem solve, and persist!

*Third Grade*

Students in Mrs. Pogorzelski's class are working as a team in learning centers to think creatively, build, and problem solve.

*Second Grade*

Students in Mrs. Meyers' 1st grade gathered together for a group picture at the end of a great 1st day of school!

*First Grade*
