

Herrman Happenings

March

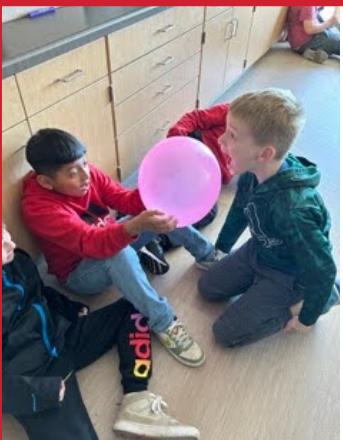

We have been having some special visitors stopping by to visit WIN students and read a story. If you would like to be one of those special visitors, please reach out to Heather Stewart.

WIN

The Kitchen celebrated National School Breakfast Week this month! The theme this year was 'Surfs up with School Breakfast'. Each day the kids enjoyed a special breakfast or surprise in their breakfast boat. We kicked off the week by taking pictures of students, and some adults, in our Hawaiian themed photo booth and ended the week with a sweet sand pudding treat.

Kitchen

Ms. White and Mr. Piper's class joined together to experiment with sound to understand how it moves through the air. They then considered what would happen in an environment like space where there is no air!

Fourth Grade

Third grade has been hard at work preparing for their upcoming Forward Exams. Students in Ms. Jacobs' class took some time to learn about polygons and quadrilaterals by building robots using only 4-sided shapes! Test prep can be fun!

Third Grade

2nd graders have been working on writing and reading about the different types of poetry. Mrs. Stencel's class made acrostic poems all about spring.

Second Grade

March 8th, was the 120th day of school, our 1st grade class celebrated by making Fruit Loop necklaces. They practiced counting by tens as well as writing and recognizing their numbers from 1-120. They certainly had fun counting, especially when they could use one of their favorite cereals, and to even eat some as they work! ;

First Grade
