

Herrman Happenings

April

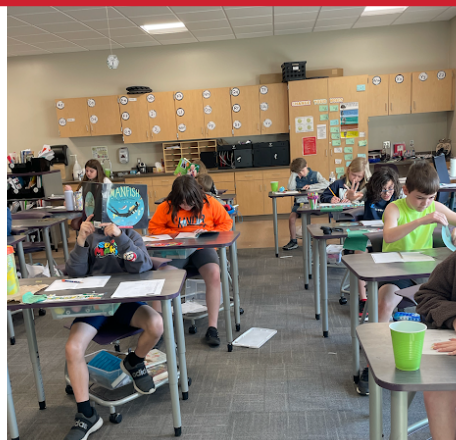

As a coach, some of our favorite days are when we are out in classrooms working with staff and students. These images show some co-teaching being done during first grade Big Ten Time. Students are using Keynote on their iPad to create a digital quiz to work on reading comprehension.

Coaches

Students from Herrman Elementary with special education needs attended Life Skills Olympics at the High School. Each student competed in 3 different life skills events.

Special Ed

4th grade enjoyed "tasting" different biographies! They noticed different text features, learning new things about different people, and things they were left wondering about who they read about. We love reading about and learning about new people! *Fourth Grade*

Third grade students have been enjoying the warm spring weather! Mrs. Strittmater's students enjoyed having a Foundations lesson outside!

Third Grade

2nd Grade enjoyed reading outside during this beautiful spring weather we are having. We love to be OUTSIDE and we LOVE to read!

Second Grade

First Grade enjoyed spring stations around the first grade neighborhood. Students participated in a rainbow craft, coloring, bingo and many more fun activities! We love hands-on learning!

First Grade
