

# Herrman Happenings

## May

Mrs. Lamprecht's small group created positive affirmation beads. Each bead represents a positive statement that students can say to themselves when they are having a difficult moment. Small groups are SO much fun!

*Counselors*

In Ms. Greunke's music class, 2nd grade students recently have been playing xylophones.

*MAPEL*

4th grade is busy preparing for our wax museum presentations at the end of May. Students chose famous people to research and will give speeches to students and staff on their person.

*Fourth Grade*

3rd graders went to the School Forest and had so much fun! They had a scavenger hunt, went on a hike, and played a game.

*Third Grade*

2nd grade students enjoyed AG Day! Students in Mrs. Pogorzelski's class made bird feeders, learned about how potatoes are grown, and visited animals in a petting zoo.

*Second Grade*

It has been a fun month of making community connections in 1st grade! We have had guest readers from River Bank along with a visit from a Monroe County police officer. We also enjoyed Ag Day with the High School FFA students and learned about bike helmet safety from members of the Sparta Kiwanis Club. We live in a wonderful and generous community!

*First Grade*
